Reality check

From the sources

The work

- ITEP is a four-year, eight-semester programme with a dual major, one in Education and one in a disciplinary or interdisciplinary subject.
- The University of Kerala's B.Ed is a two-year course of four semesters, and IGNOU's B.Ed runs 24 to 60 months and gives the prospect as a secondary teacher.

Entry requirements

- Two different routes are shown.
- ITEP at the University of Delhi asks for 50% in Class 12 and a place in NCET 2026.
- The two-year B.Ed at Delhi asks for a bachelor's or master's degree with 50% (45% for SC, ST and PwBD) through CUET (PG), accepts engineering or technology degrees in science and mathematics at 55% (50%), asks for a teaching subject of at least 200 marks or 8 credits with 50% in it, and excludes Management and Law degrees.
- IGNOU asks for a bachelor's or master's degree with 50% and an NCTE-recognised teacher education programme in face-to-face mode, as printed.
- NCTE's own regulation and NTA's NCET bulletin could not be read.

Trade-offs to consider

- Appearing in NCET 2026 does not by itself secure an ITEP seat at Delhi University because the candidate must also apply on its own portal, and the University of Kerala says non-Keralite candidates are considered against open merit seats only.
- Fees differ widely between institutions, as the claims below show.
