## ⚠ Reality check

From the sources

### The work

Not established. The notices cited list posts, eligibility, pay and fees, not the day-to-day work.

### Entry requirements

- ISRO's 2026 computer science post asked for B.Tech in computer science or an allied branch with at least 65% marks or CGPA 6.84 and an age of 28 or less at the closing date
- Its FAQ says an MCA candidate is not eligible.
- IBPS's IT Officer (Scale I) post accepted a 4-year engineering degree in computer science, computer applications or IT, or a postgraduate degree in listed fields, or a graduate with DOEACC 'B' level.
- NIC's Scientific/Technical Assistant post names M.Sc, MS, MCA and B.E./B.Tech in listed fields and merit is by a valid GATE CS score.
- Each notice lists its own degrees: check the current one.

### Trade-offs to consider

- Routes for a new graduate are narrow and gated: NIC asks for a GATE score and ISRO for a percentage cut-off and an age limit.
- The BEL, ECIL, HAL and C-DAC posts read here are fixed-term contracts of one to four years with no right to a regular post, and the open SBI advertisement asks for 10 or more years of experience.
- The pay figures are the notices' own, for one post and one date, and are not take-home pay.
- Most cycles shown are closed.
